On-Line Fire Safety Management Provided By:

IS YOUR BUILDING  
**FIRE SAFE?**

WE CAN HELP

FIRE SAFETY SOLUTIONS  
NORTHERN IRELAND

**Helping to make the management of fire safety effortless within your business...**

Fire Safety Solutions NI provides a complete range of fire safety products and services including fire risk assessments, fire safety training and online solutions using our exclusive fire safety management system. This system incorporates fire risk assessment reports, fire safety log books and fire awareness training, allowing secure on-line access from any location. All premises registered include a control panel detailing due dates for checks, servicing, training and a risk meter allowing you to monitor each site in real time, making it an ideal multi site management tool.

**With our specialist team of fire safety professionals we endeavour to find you solutions which are practical and cost effective for your business.**

Our experienced team of engineers look after the installation & servicing of fire alarms, emergency lighting, and fire extinguishers. We can also satisfy your requirements for portable appliance testing, electrical testing and the provision of safety signage.

**We pride ourselves on keeping our clients legally compliant, fully insured and most importantly protected from the RISK of FIRE.**

**FIRE RISK ASSESSMENT**

- Legal & insurance requirement for all businesses
- User friendly report including building plans & photographs
